UNIFORMED SECURITY

All security officers are trained prior to assignment at any account. Permanently assigned officers receive additional training to understand any client requirements and expectations.

VEHICLE PATROL

Safety Ops Specialists can give a secure presence to any area with our Vehicle Patrol. Our patrol services are extremely visible and allow the officer to cover larger areas than an officer on foot.

ON SITE SECURITY OR SPOT CHECKS

Whether with a designated officer and site patrol vehicle or a scheduled location check, Safety Ops Specialists can provide safety and security to your site.

LOSS PREVENTION OFFICERS

Whether in full uniform or undercover, Loss Prevention Officers can catch shoplifters in the act and help recover inventory that's most valuable to you.

BENEFITS OF SECURITY

SECURITY DISCOURAGES THEFT AND ROBBERY

The presence of a security officer at a store makes it less of a target. Criminals will attempt to rob or steal from a store with less protection.

LOSS PREVENTION OFFICERS REDUCE SHRINKAGE

Loss Prevention Officers are specially trained to help reduce retail shrinkage. They are trained to gather the necessary information to help prevent theft from customers or employees, and to help law enforcement do the same.

PROTECT YOUR STORE IN LEGAL SITUATIONS

Store owners have to do what they can to protect themselves in legal situations, and that includes having the necessary evidence of crimes that occur in their store. A security officer can serve as a witness to any and all criminal activity that takes place.

KEEP YOUR CUSTOMERS SAFE

Customers who feel safe become repeat customers. A security officer can protect customers from attackers, solicitors, and car thieves.
